BERRY PLANTS

REC'D JAN 24 1921

From
**THE PUYALLUP
VALLEY**

The greatest berry
growing district in
the world.

**ROSECROFT
NURSERIES**

F. H. BURGLEHAUS
PROPRIETOR
Sumner, Wash.

Instructions

This list embraces our offers for the Fall, 1920, and Spring, 1921—canceling all previous prices. We will not issue a descriptive catalog this season, but will gladly mail a copy of a former issue, giving cultural directions and describing the various varieties to those who request same.

LOCATION

Our Nurseries and Fruit Farms are located one mile southeast of Sumner Depot. We are always glad to welcome visitors and to consult with prospective customers on any phase of the small fruit industry. We solicit your correspondence if we can be of service.

TERMS

Our prices are for stock packed and delivered at Sumner shipping station. Cash should accompany order or special arrangements be made for terms.

GUARANTEE

We endeavor to give good value to all customers. We guarantee all plants shipped by us are first class when delivered to the carrier and true to name. If through error any should prove otherwise we will cheerfully replace them free of charge. We cannot guarantee all plants to live because it is impossible for us to know the conditions of planting and care they receive.

PLANTING SEASON—Preferably just after growth stops in fall.

For best results all planting should be done while the plants are dormant or before the plants start growth in the spring. Our shipping season begins about October 15 and continues until April. Place your orders early to have stock ready when ground is workable.

SUBSTITUTING

We are sometimes out of the variety ordered and rather than disappoint our customers we may substitute another kind of equal quality and value unless we are instructed to the contrary.

COMPLAINTS

If any, should be made within ten days from receipt of shipment that we may make prompt investigation and adjust any errors for which we are responsible.

RASPBERRIES

One of the most delicious of fruits and only second to the strawberry in popularity among the small fruit varieties.

ROSES

We are pleased to offer the following list of roses to those who wish to include a few choice kinds with their plant order.

Strong two-year bushes should bloom the first season.

Price ~~50c~~ ⁶⁰ each except where noted.

MADAME CAROLINE TESTOUT—(Portland's Official Rose) A wonderful bloomer, large, bright, silvery pink flowers all summer.

LaFRANCE—One of the best and most popular of the pinks; too well known to need description.

HUGH DICKSON—The best bright red. Does not fade like some of the other reds and blooms profusely.

GENERAL JACQUEMINOT—(Jack Rose)—A well known dark velvety red of exceptional merit. Always a satisfaction and delight.

MADAM EDOUARD HARRIOTT—Strong grower; a blending of shrimp pink, coppery orange and apricot; most exquisite of its class. Each, 70 cents.

FRAU KARL DRUSCHKI—(Snow Queen)—Flowers very large, perfect in form and of purest snow white color. A free bloomer and vigorous grower.

CLIMBING HERMOSA—A very hardy, strong growing climber. Blooms early and late. A mass of beautiful pink when at its best.

DOROTHY PERKINS—(Climber)—A splendid climber with delicate pink flowers in large clusters. Foliage is especially attractive; very fine and glossy.

CRIMSON RAMBLER—A strong growing climber, producing myriads of brilliant red flowers in large clusters. Rich green foliage.

CLIMBING WM. ALLEN RICHARDSON—A rich coppery yellow flushed with carmine. Blooms freely and is an excellent variety. Each, 60 cents.

CULTURAL DIRECTIONS

Suitable Distances for Planting and Number Required per Acre.

Kind	Spacing	No. per A.
Grape Vines	8 x 8 ft.	780 vines

Rhubarb	5 x 5 ft.	1742 "

FLOWERING SHRUBS

Two-Year Old Strong Plants @ 50 Cents Each.

Lilac—Excellent for hedges and screens as well as for ornament. Purple or white.

Forsythia (Golden Bell)—Covered with bright yellow drooping bells before the leaves appear in the spring.

Smoke Tree (Purple Fringe)—Large clusters of filmy, smoke like flowers with pink tinge.

Snowball—Too well known to need description.

Bridal Wreath (Spiraea Van Houtte)—Long dense sprays of pure white flower clusters covering the entire bush. Spring.

Kerria Japonica—Bright yellow rosetts, produces all summer. Very desirable for bouquets.

Japan Quince—Brilliant red flowers appearing with the leaves in early spring.

Jassamine (Winter flowering)—Flowers during January and February if planted in protected place on south side of building.

Oregon Grape—Not the common scraggly kind of the western woods, but a tall growing shrub with evergreen holly like leaves and yellow flowers followed by bright blue berries. Excellent hedge.

Privet Hedge Plants—Evergreen in Western Washington. One-year plants, 6 cents each; two-year plants, 8 cents each.

Following at 60 Cents Each

Buddlea or Butterfly Bush—Very beautiful long spikes of lilac colored flowers all summer. Attracts hundreds of butterflies.

Wisteria—A strong growing vine especially suitable for arbors. Long pendant plumes of purple flowers in spring.

PERENNIAL FLOWERING PLANTS

15 Cents Each

Shasta Daisy

Golden Glow

Hardy Chrysanthemums

Achillea the Pearl

Correopsis — Bright yellow long-stemmed flowers late summer.
